micro MORPH

Microevolutionary Molecular and Organismic Research in Plant History

Cross-Disciplinary Training Grant

microMORPH is an NSF-supported Research Coordination Network that promotes and fosters cross-disciplinary interaction through a series of small grants that allow **graduate students**, **post-doctoral researchers**, and **early career faculty** to visit labs and botanical gardens with the aim of enriching their scientific research on plants.

These grants are available to support cross-disciplinary visits between labs or institutions for a period of a few weeks to an entire semester. **We are committed to supporting diverse aspects of plant evo-devo related to questions or processes of microevolution.**

Award Amount

Each Year, microMORPH is able to fund five graduate student, post-doctoral, or early career faculty cross-training research opportunities for up to **$3,500 to cover travel, lodging, and pier diem**.

Submission Deadline

The next deadline for microMORPH Cross Disciplinary Training Grant applications is **11:30 pm, March 15th, 2016**.

How to Apply

Full grant information can be found and applications can be submitted at the microMORPH website at **http://projects.iq.harvard.edu/micromorph/grants**.
