There are many ideas about how the U. S. deal with rising health care costs and access to medical care. For each, please indicate whether you support, oppose, neither support nor oppose, or are not sure.

**CC09_50A**
Require that businesses provide health insurance for their employees and their families, with tax breaks to help small businesses afford this.

**CC09_50B**
Require that all people buy health insurance, with the government providing low-cost insurance for poorer people.

**CC09_50C**
Limit the damages that can be awarded in malpractice laws.

**CC09_50D**
Set up panels of medical experts to make recommendations on which tests or treatments should or should not be paid for by government and private insurance.

**CC09_50E**
Make patients pay more to obtain treatments that have not been shown to be effective for their condition, even if the patient's doctor recommends the treatment.

**CC09_50F**
Set up a public insurance entity to compete with private firms to offer low-cost health insurance.
Which of the following do you think best describes your view about global warming?

Order as shown
1 ○ Immediate and drastic action is necessary.
2 ○ We should take some action now.
3 ○ More research is needed before action is taken.

RULE

The federal budget is currently running a substantial deficit. If Congress were to balance the budget it would have to consider cutting expenditures, including on defense and domestic programs such as Medicare, and raising taxes. What would you prefer more raising taxes or cutting spending? Choose a point along the scale from 100% tax increases (and no spending cuts) to 100% spending cuts (and no tax increases). The point in the middle means that the budget should be balanced with equal amounts of spending cuts and tax increases. If you are not sure, or don't know, please check the "don't know" box.

Values in range 0 to 100

0 < All from tax increases Minimum
100> All from spending cuts Maximum
