STATE OF ILLINOIS
REQUEST FOR PROPOSAL

To provide Professional Services relating to Illinois’ Social Impact Bonds Program
Illinois Procurement Bulletin Reference Number: 22032020

Governor’s Office of Management and Budget

RFP Issued: September 27, 2013
Offers Due: December 3, 2013, 12:00 PM (CT)

The Governor’s Office of Management and Budget (“GOMB,” the “Agency”, or “State”), on behalf of the Department of Children and Family Services (DCFS) and the Department of Juvenile Justice (IDJJ), requests proposals from responsible Offerors to meet its needs. A brief description is set forth below for the Offeror’s convenience, with detailed requirements in subsequent sections of this solicitation. If interested and able to meet these requirements, the State appreciates and welcomes an offer.

Brief Description

Illinois is pioneering the use of social impact bonds (SIBs), often referred to as “pay-for-success” contracting, as a new approach toward solving pressing community challenges. Social impact bonds advance evidence-based solutions while limiting the risk to taxpayers if a program is unsuccessful. Social impact bonds represent a smarter way for government to do business, furthering transparency and accountability to ensure that taxpayer funds are not spent on ineffective programs. Success-based contracting presents an opportunity for Illinois to increase the efficiency of government-funded service delivery, reduce costs to state taxpayers, and accelerate innovation in ameliorating social problems for high-risk populations. The initiative is part of Governor Quinn’s agenda to foster innovation across Illinois, expand pathways for at-risk youth, and make government smarter.

This Request for Proposal (RFP) specifically seeks responses to undertake social impact bonds initiatives related to:

1. Providing wraparound community-based services to increase placement stability for crossover youth dually involved in DCFS and IDJJ
2. Improving employment, educational, and recidivism outcomes for justice-involved youth at a high risk of reoffending

The State will consider only applications that meet all service provision, project management, and capital-raising functions required by social impact bond contracts. It is permissible for a single entity to propose to take on all three roles, for a lead organization to propose to fulfill one of the roles and to obtain the additional capacity necessary to fulfill the other roles through pre-specified consulting or subcontracting arrangements, or for a joint-entity of multiple partnering organizations to propose to take on all three roles (with or without subcontracting arrangements). For example, possible Offeror structures include, but are not limited to (a) an independent service provider with project

In compliance with the State and Federal Constitutions, the Illinois Human Rights Act, the U.S. Civil Rights Act, and Section 504 of the Federal Rehabilitation Act, the State of Illinois does not discriminate in employment, contracts, or any other activity.

The State of Illinois encourages prospective vendors to consider hiring qualified veterans and Illinois residents discharged from any Illinois adult correctional center, in appropriate circumstances.
management and capital-raising capabilities, (b) a service provider with project management capabilities that contracts with a consultant to support capital-raising, (c) a financial intermediary with project management and capital-raising capabilities that contracts with one or more service providers, or (d) a partnership between a service provider and a financial intermediary with capital-raising capabilities that together have project management capabilities.

The State may enter into one or more social impact bonds contract(s) immediately and may pursue additional initiatives depending on the quality of proposed SIB projects (according to the criteria outlined in this RFP), Agency capacity, and the availability of funding. The State makes no guarantee that a contract, or any obligation to purchase any services, will result from this RFP. The resulting contract with the awarded vendor shall have an initial term of up to seven (7) years. The State reserves the right to assign certain of its obligations under the contract entered into pursuant to this RFP to one or more State agencies or entities, as may be appropriate.

Please read the entire solicitation package and submit an offer in accordance with the instructions. All forms and signature areas contained in the solicitation package must be completed in full and submitted along with the technical response and price proposal which combined will constitute the offer. Do not submit the instruction pages (Sections A and B) with offers. Offerors should keep the Instructions and a copy of offers for future reference. The State reserves the right to reject offers that fail to adhere to proposal form and content requirements.

Background

Illinois is on the leading edge of social impact bonds among states in the U.S., following New York and Massachusetts, which have recently issued procurements. On April 9, 2013, Governor Quinn announced the launch of Illinois’ Social Impact Bonds program. GOMB issued a Request for Information (RFI) on May 3, 2013 to solicit ideas for SIBs projects and received over forty responses, which were made publicly accessible on the State’s Social Impact Bonds website at http://sib.illinois.gov. The ideas submitted in response to the RFI informed the development of this RFP.

Under the most common social impact bond model, the government contracts with an independent intermediary entity, or directly with a service provider, to provide social services. The government pays this contract-holder entirely or almost entirely based upon achievement of performance targets. Performance is rigorously measured by comparing the outcomes of individuals referred to the service provider relative to the outcomes of a comparison or control group that is not offered the services.

If the contract-holder fails to achieve the minimum target, the government does not pay, ensuring that taxpayer funds are not spent on programs that are ineffective. Payments typically rise for performance that exceeds the minimum target, up to an agreed-upon maximum payment level. The contract-holder obtains operating funds by raising capital from private commercial or philanthropic investors who provide upfront capital in exchange for a share of the government payments that become available if the performance targets are met. If the contract-holder is an intermediary, it uses these operating funds to subcontract with one or more service providers to deliver the interventions necessary to meet the performance targets.

Independent monitoring and evaluation of outcomes is critical in social impact bond contracts, as government payment is predicated on the achievement of outcomes. Rigorous evaluation systems, which determine if pre-agreed upon targets have been reached, can deepen the State’s understanding of which social service programs actually work, and findings can be used to improve services throughout Illinois. This learning enables the State to spend taxpayer funds more efficiently and scale evidence-based innovative social programs that have been proven to work in Illinois.

The term “Social Impact Bond,” which was coined in the UK, has led to some confusion. The private sector financing arrangement is not a typical debt instrument and these transactions do not require the government to issue debt. To avoid these misperceptions, the federal government tends to call these projects “pay-for-success” contracts.

The State may request a clarification, inspect Offeror’s premises, interview staff, request a presentation, or otherwise verify the contents of the Offer, including information about subcontractors and suppliers. The State may request Best & Final Offers when appropriate. The State will make all decisions on compliance, evaluation, terms and conditions, and shall make decisions in the best interests of the State and in accordance with applicable state and federal statutes and regulations. This competitive process may require that Offeror provide additional information and otherwise cooperate with the State. If an Offeror does not comply with requests for information and cooperate, the State reserves the right to reject the Offer as non-responsive to the solicitation. Submitting an Offer does not entitle Offeror to an award or a contract.
Posting Offeror’s name in a Bulletin notice does not entitle Offeror to a contract. The State is not responsible for and will not pay any costs associated with the preparation and submission of any Offer. Awarded Offeror(s) shall not commence, and will not be paid for any billable work, prior to the date all parties execute a contract.

A.20. AWARD: The State is not obligated to award a contract pursuant to this solicitation. If the State issues an award, the award will be made to the Responsive Offeror and most Responsible Offeror whose Offer best meets the specified criteria. However, if the State does not consider the Price to be fair and reasonable and negotiations fail to meet an acceptable Price and/or other terms, the State reserves the right to cancel the award and take appropriate action to meet the needs of the State. The State will determine whether the price is fair and reasonable by considering the Offer, including the Offeror’s qualifications, all prices submitted, other known prices, the project budget and other relevant factors. A.22. PAYMENT AND INVOICING: The selected vendor or vendors (hereafter “Vendor”) will be reimbursed through a pay-for-success reimbursement structure determined in contract negotiations. Payment from the State will be contingent on the Vendor meeting outcomes, as determined by an independent validator which the State will separately secure, agreed upon by both parties in the contract. The State anticipates that the Vendor will secure working capital from the commercial and philanthropic investment marketplace to cover operating expenses during the duration of the contract. Vendor shall invoice the State upon the certification of results at the completion of the contract, or as otherwise agreed upon by both parties in the contract. The Department to which invoices should be submitted by the Vendor will be identified in contract negotiations. Payment is subject to appropriation as needed by the General Assembly.

The Protest Officer will consider all such written protests which are submitted according to the time periods specified below. The Protest Officer will investigate all allegations and issue a written response. The decision of the Protest Officer is final.

Protests must be in writing and will be considered filed when physically received by GOMB at the following address:

Governor’s Office of Management and Budget
Office of the General Counsel
James R. Thompson Center
Protests must be filed within seven (7) calendar days after the protestor knows or should have known of the facts giving rise to the protest. If a protest is received, any award made will not be considered final until the protest is resolved.

A.24. EVALUATION PROCESS: The State evaluates three categories of information: Responsibility, Responsiveness, and Price. The State considers the information provided and the quality of that information when evaluating Offers. If the State finds a failure or deficiency, the State may reject the Offer or reflect the failure or deficiency in the evaluation.

A.24.1. RESPONSIBILITY: A Responsible Offeror is one who has the capability in all respects to perform fully the contract requirements and who has the integrity and reliability that will assure good faith performance. The State determines whether the offeror is a “Responsible” Offeror; an offeror with whom the State can or should do business. For example, the State may consider the following:

A.24.1.1. A “prohibited offeror” includes any person assisting an employee of the State of Illinois by reviewing, drafting, directing, or preparing any invitation for bids, a request for proposal, or request of information, or providing similar assistance unless such assistance was part of a publicly issued opportunity to review drafts of all or part of these documents. For purposes of this section, an employee of the State of Illinois means one who, by the nature of his or her duties, has the authority to participate personally and substantially in the decision to award a State contract. No person or business shall submit specifications to a State agency unless requested to do so by an employee of the State. No person or business who contracts with a State agency to write specifications for a particular procurement need shall submit a bid or proposal or receive a contract for that procurement need.

Nothing herein is intended to prohibit a potential vendor from bidding or offering to supply developing technology, goods or services after providing the State with a demonstration of the developing technology, goods, or services; provided the subject of the demonstration to the State represents industry trends and innovation and is not specifically designed to meet the State’s needs. Nor is it intended to prohibit a person or business from submitting a bid or offer or entering into a contract if the person or business: (i) initiates a communication with an employee to provide general information about products, services, or industry best practices and, if applicable, that communication is documented in accordance with Section 50-39 or (ii) responds to a communication initiated by an employee of the State for the purposes of providing information to evaluate new products, trends, services, or technologies.

A.24.1.2. Other factors that the State may evaluate to determine Responsibility include, but are not limited to: certifications, conflict of interest, financial disclosures, taxpayer identification number, past performance in business or industry, references (including those found outside the Offer), compliance with applicable laws, financial responsibility, insurability, effective equal opportunity compliance, payment of prevailing wages if required by law, capacity to produce or courses of supply, and the ability to provide required maintenance service or other matters relating to the Offeror’s probable ability to deliver in the quality and quantity within the time and price as specified in this solicitation.
A.24.1.3. Awarded Offerors must at all times have financial resources sufficient, in the opinion of the State, to ensure performance of the contract and must provide proof upon request. The State may require a performance bond if, in the opinion of the State, it ensures performance of the contract. The State may terminate any resulting contract, consistent with the termination for cause provision of the contract, if the Offeror lacks the financial resources to perform under the contract. The State may require that an Offeror correct any deficiencies as a condition of further evaluation.

A.24.2. RESPONSIVENESS: A Responsive Offeror is one who submits an offer that conforms in all material respects to the Request for Proposal, and includes all required forms. Required forms may include and may not be limited to:

- State Board of Elections Registration: Vendor or Offeror may be prohibited from making political contributions and be required to register with the State Board of Elections. See Attachment AA - State Board of Elections Registration for more detail.

- Authorized to Do Business in Illinois: A person (other than an individual acting as a sole proprietor) must be duly constituted legal entity and authorized to do business in Illinois prior to submitting an Offer. Offeror shall complete certification #31 in Attachment GG - Standard Certifications, and provide any required documentation.

- Subcontractor Disclosure: If Offeror’s Offer includes any subcontractors, Offeror shall complete Attachment FF - Subcontractor Disclosure.

- Standard Certifications: Offeror shall complete Attachment GG - Standard Certifications.

- Financial Disclosures and Conflicts of Interest: Offeror shall complete Attachment HH - Financial Disclosures and Conflicts of Interest.

A.24.2.1. The State will determine whether the Offer meets the stated requirements. Minor differences or deviations that have negligible impact on the price or suitability of the supply or service to meet the State’s needs may be accepted or corrections allowed. If no Offeror meets a particular requirement, the State may waive that requirement.

A.24.2.2. The State will determine whether Offeror’s Offer complied with the instructions for submitting offers. Except for late submissions, and other requirements that by law
must be part of the submission, the State may require that an Offeror correct deficiencies as a condition of further evaluation.

A.24.3. **PRICE**: The State identifies the best scoring Price Offer that meets Responsibility and Responsiveness requirements.
B. SELECTION OF VENDOR

B.1. The State may award to the most Responsive/Responsible Offeror whose Offer best meets the below criteria.

B.2. The State determines how well Offers meet the Responsibility and Responsiveness requirements. The State will rank complete and compliant Offers, without consideration of Price, from best to least qualified using a point ranking system (unless otherwise specified) as an aid in conducting the evaluation. The most qualified Offers will then be considered for Price evaluation and Award.

B.2.1. A Procurement Management Team (PMT) will be designated by GOMB, in conjunction with DCFS and IDJJ, prior to the opening of any Offers.

B.2.2. All Offers will be reviewed by GOMB to determine completeness and compliance with the response submission instructions as outlined above in Subsections A.24.1 and A.24.2.

B.2.2.1. The PMT may determine non-compliance with an RFP requirement is insubstantial. In such cases, the PMT may seek clarification, allow the Offeror to make minor corrections, apply appropriate penalties in evaluating the Response, or apply a combination of all three remedies.

B.2.3. For those responses that are complete and comply with the Offer submission instructions, the PMT will evaluate and score for Responsiveness the Technical Response provided in Offer, Section 1 – Specifications/Qualifications/Statement Of Work according to the scoring criteria listed below in Section B.5.

B.2.4. The four highest scoring Offers deemed most qualified by the PMT will be considered Finalists. The PMT will interview Finalists to clarify their Technical Responses. Offerors’ effectiveness in clarifying their Technical Responses and responding to questions from the PMT will be considered as part of their final Responsiveness scoring. Finalists will be considered by the PMT for Price Elements and Award recommendation.

B.2.5. The maximum number of total points is 1,000 (Responsiveness 825 + Price 175).

B.3. The State reserves the right to reject an Offeror’s response at any time during the evaluation process if the Offeror:

B.3.1. Fails to demonstrate to the PMT’s satisfaction that it meets all RFP requirements;

B.3.2. Fails to submit all required information or otherwise satisfy all Response requirements in Offer, Section 1 – Specifications/Qualifications/Statement Of Work or Offer, Section 2 – Pricing;

B.3.3. Has any interest that may, in the PMT’s sole determination, conflict with performance of services for the State or be anti-competitive; or

B.3.4. Rejects or qualifies its agreement to any of the mandatory provisions of the RFP or the State’s standard Contract Terms and Conditions.
B.4. The PMT may determine some element of an Offeror’s response requires clarification to verify its responsiveness to the RFP or facilitate a fair comparison with competing proposals. The State may request a clarification, inspect Offeror’s premises, interview staff, request a presentation, or otherwise verify the contents of the Offer, including information about subcontractors and suppliers.

B.5. **RESPONSIVENESS ELEMENTS:** The chart below shows the elements of Responsiveness that the State evaluates in its scoring criteria and their relative weights in point format.

B.5.1. The maximum number of points for Responsiveness is 825.

B.5.2. Requirements outlined in the criteria must be met by at least one of the proposed SIB partner organizations if the Offeror represents a partnership between multiple organizations. Please note that the State reserves the right to disqualify a proposal if the PMT deems that the Offeror does not have the capacity to raise adequate funds for the proposed SIB Project.

B.7. **RECOMMENDATION AND SELECTION PROCESS:** After the PMT has completed the evaluation of all responses, the PMT shall make recommendations for award to the Director of GOMB who, in consultation with the Governor's Office and the Directors of DCFS and IDJJ, will make decisions about award and any subsequent contract negotiations.

While recommendations of the PMT will be a key factor in the procurement decisions, the State considers the findings of the PMT to be non-binding recommendations and will make decisions in the best interest of the State. The Agency Directors and the Governor’s Office maintain final authority over funding decisions and reserve the right to consider additional factors, such as geographical distribution of proposed service areas, past performance history and/or financial standing with the State, when making final Award decisions.

All awards are contingent upon successful negotiation of contract terms. At any time during the contract period, GOMB reserves the right to negotiate changes to the original contract, performance specifications and performance outcomes/measures, consistent with the terms of this RFP, upon reasonable notice to the Vendor.

1. OFFER, SECTION 1 - SPECIFICATIONS/QUALIFICATIONS/STATEMENT OF WORK

Include Section 1 and any attachments in Packet 1

1.1. **GOAL:** The State of Illinois (the “State”), through the Governor’s Office of Management and Budget (“GOMB” or the “Agency”), on behalf of the Department of Children and Family Services (DCFS) and the Department of Juvenile Justice (IDJJ), is requesting proposals from organizations that seek to partner with the State on Social Impact Bond (SIB) contracts.

1.2. **SCOPE OF SERVICES REQUESTED:** This RFP seeks proposals for either of the two below program areas. Proposals should respond to only one of these program areas. Offerors may submit an additional complete response under separate cover if interested in responding to the second program area.

1.2.1. **Child Welfare – Provide wraparound community-based services to increase placement stability for crossover youth dually involved in DCFS and IDJJ**

A large number of displaced youth in residential care with the State have experienced the trauma of multiple placement disruptions and failures, long stays in foster care, and the lack of a permanent home before entering residential care. A 2004 analysis by the Chapin Hall Center for Children at the University of Chicago, which examined residential care utilization within Illinois, determined that nearly 40% of youth entering DCFS residential care entered directly from locked settings, often juvenile detention, IDJJ facilities, or mental health programs. In the decade since, the State has also observed a growing trend towards higher-end care required for youth in residential treatment; DCFS estimates that in FY2013, nearly 42% of youth placed in residential care with the State required high-end services.

The State seeks to provide greater community-based placement stability and fewer instances of incarceration for delinquency and criminality for these high-risk youth. Often termed “dually involved youth” or “crossover youth,” these youth are typically either DCFS wards who get in trouble with the law, or IDJJ delinquents entering DCFS. Offeror’s proposed services should reflect an integrated continuum of care that provides appropriate evidence-based interventions and wraparound services, with linkages to mental health care and substance abuse treatment as needed.

Priority outcomes include increased diversion of these youth from high-end residential placements with the State into community-based settings, and decreased recidivism and future involvement with the criminal justice system.

1.2.2. **Juvenile Justice – Improving employment, educational, and recidivism outcomes for justice-involved youth at a high risk of reoffending**

An essential measurement of any juvenile “reentry” system is whether youth returning from incarceration remain safe and successful within their communities. An Illinois Criminal Justice Information Authority (ICJIA) analysis of juveniles released from IDJJ during state fiscal years 2005-2007 found that within three years of release, 86% of youth were rearrested and 68% of youth were re-incarcerated, rates similar to those of other states.

The State seeks to improve educational achievement and employment outcomes for justice-involved youth (ages 15-23) who are either incarcerated, on probation, or in IDJJ
aftercare/parole and at a high risk of recidivating. Offeror’s proposed services should be characterized by (1) intensive, individualized academic remediation that provides educational continuity through high-school graduation or GED certification, (2) technical skills-based job training and paid work experience, preferably in science, technology, engineering, and math (STEM) related industries, and (3) evidence-based cognitive behavior therapies, trauma-informed care, family engagement, and wraparound services as needed.

As a result of improved educational achievement, employment preparedness and job retention, and therapeutic intervention, youth returning from IDJJ facilities to their communities will be at a decreased risk for future deviant or criminal behavior. Priority outcomes include reduced recidivism, increased employment opportunities and job retention in livable-wage careers, increased high school graduation and/or GED certification, and increased enrollment in post-secondary education and/or technical/professional certification programs.

1.3. ADDITIONAL OFFEROR SPECIFICATIONS: GOMB will consider only applications that meet all service provision, project management, and capital-raising functions required by social impact bond contracts; see Section 1.6 for the full list of required functions. It is permissible for a single entity to propose to take on all three roles, for a lead organization to propose to fulfill one of the roles and to obtain the additional capacity necessary to fulfill the other roles through pre-specified consulting or subcontracting arrangements, or for a joint-entity of multiple partnering organizations propose to take on all three roles (with or without subcontracting arrangements).

For example, possible Offeror structures include, but are not limited to, (a) an independent service provider with project management and capital-raising capabilities, (b) a service provider with project management capabilities that contracts with a consultant to support capital-raising, (c) a financial intermediary with project management and capital-raising capabilities that contracts with one or more service providers, or (d) a partnership between a service provider and a financial intermediary with capital-raising capabilities that together have project management capabilities.

1.4. ADDITIONAL PROJECT SPECIFICATIONS: The State expects its total costs for any given social impact bond contract (before accounting for benefits) will be between $5 million and $30 million, including all project costs, outcome evaluation and validation costs, and maximum investor returns for the entire length of the project. There should be a service delivery period of at least 4 years, allowing for at least 3 cohorts of outcome data to be available by the beginning of the final year of service delivery when the State may begin to consider future service needs. Projects may require a planning and start-up period of up to one year, as well as up to two years at the end of the Project for the completion of service delivery and measurement of outcomes. The State reserves the right to enter into contracts of either shorter or longer duration if it believes that doing so would best achieve the goals of this RFP.

The State may enter into one or more SIB contract(s) immediately and may pursue additional initiatives depending on the quality of proposed SIB projects (according to the criteria outlined in this RFP), Agency capacity, and the availability of funding. The State makes no guarantee that a contract, or any obligation to purchase any services, will result from this RFP.

1.4.1. GOMB will separately secure an independent outcome evaluator/validator for this initiative.

1.4.2. The most recent report depicting juvenile justice system recidivism and risk factor data can be found online at the Illinois Criminal Justice Information Authority (ICJIA) website: http://www.icjia.state.il.us/public/index.cfm.

1.5. TECHNICAL RESPONSE REQUIREMENTS: All Offerors must submit a Technical Response that addresses the required elements outlined in Subsections 1.5.1 – 1.5.4.
The response should reflect the Qualifications listed in Section 1.6 below, as well as the Offeror’s understanding of social impact bond contracting as described in the background section of this RFP. It should explain the Offeror’s role in achieving the State’s overall objective of using success-based contracting to increase the efficiency of government-funded service delivery, reduce costs to state taxpayers, and accelerate innovation in ameliorating social problems for the target population. Responses should be as specific as possible in describing how and to whom the organization will provide services, what set of services would be provided, how the proposed model would incorporate proven best practices, and how the project would generate savings for the State.

The Technical Response should be submitted in Packet 1. Offerors must present proposals in the same sequence and with the same letter scheme and heading shown in this Section 1.5. The Technical Response should be written in a concise manner; the State will disregard material that is not directly relevant to the information requested below. If the Offeror believes that a subject has been adequately addressed in another part of the application narrative, then a cross-reference to the appropriate part of the narrative must be provided.

Please make specific reference in your response, as well as in any accompanying cover letter or document, to any legitimately and appropriately confidential or proprietary material contained in your response.

1.5.1. **Cover Letter**: A cover letter signed by an individual authorized to negotiate for and execute the Contract on behalf of the Offeror, and that includes all of the following information (failure to submit a cover letter including all components may result in disqualification from consideration).

1.5.1.1. A statement that the submission is a response to GOMB’s Social Impact Bonds RFP.

1.5.1.2. Identification of the relevant program area, as described in Section 1.2, to which this response is directed.

1.5.1.3. Brief summary of description of the target population; proposed intervention; proposed outcomes and measure(s); and service cost and expected savings to the State.

1.5.1.4. The name, principal address, and type of legal entity of each of the Offeror organization(s).

1.5.1.5. The name, address, email, telephone number, and fax number of individual(s) authorized to negotiate the contract on behalf of each of the Offeror organization(s) and who are signing the cover letter.

1.5.2. **Overview of Offeror Organization(s) (collectively, the “Offeror”)**

1.5.2.1. Describe Offeror’s mission(s) and programs.

1.5.2.2. Explanation of how the Offeror organization(s) plan to allocate responsibilities and meet the stated requirements for the intermediary and for the service provider functions as outlined below in Section 1.6. If multiple organizations are responding to this RFP jointly as a single Offeror, please describe the nature of the relationship and provide details on any partnership agreement(s). Identify the organization that will serve as the fiscal agent for funds.
1.5.2.3. Identify any other organizations that will have a significant role in the delivery of services and will receive funds from the Social Impact Bond initiative, including but not limited to sub-contractors or consultants.

1.5.2.4. Describe Offeror’s experience in providing the described types of services, and provide performance data relating to such experience. Clearly indicate any current or past contracts your firm has held to provide services of a similar nature to the State.

1.5.2.5. Describe Offeror’s organizational infrastructure as it relates to its capacity to deliver the Scope of Services listed below, including information on the expertise and experience of key executives, staff, and directors.

1.5.2.6. Describe Offeror’s prior experience in collaborating with public and/or private entities for service delivery, as well as with funding entities, highlighting specific prior involvement with the State and/or other programs of comparable size and complexity.

1.5.2.7. Describe Offeror’s prior experience with performance-based service delivery and with the collecting, tracking, and reporting of data to measure performance and impact.

1.5.2.8. Describe Offeror’s capacity to provide regular and on-demand reports to the State on service provision, outcomes, overall project management, or other project-related topics as requested.

1.5.3. **Scope of Services**

1.5.3.1. Describe the target population to be served, as well as any geographic focus areas if appropriate, and provide an estimate of the number of clients that could be served annually over the term of the contract. In doing so, explain the specific methods that will be used to identify the target population and to select, engage, and retain program participants. Also explain any modifications to current or ongoing processes that may be necessary for a SIB project. Describe your understanding of the developmental, support and service needs of this population that will need to be addressed in order to achieve sustainable positive program outcomes.

1.5.3.1.1. In cases where the State does not have legal jurisdiction over youth (who, for example, may have aged out of its systems), providers should develop effective means for engaging these youth on a voluntary basis.

1.5.3.2. Describe the program delivery model, including which services would be delivered, where the services would be delivered, and by whom. Provide a clear and specific process for determining the type, level and duration of assistance for each program participant and the expected average benefits to be provided to eligible participants. Additionally:

1.5.3.2.1. Identify for which services the Offeror intends to be the primary provider, and for which, if any, services the Offeror intends to contract with a subcontractor(s).
1.5.3.2.2. Describe any required linkages to current state programs, such as mental health services, for treatment populations during the service period.

1.5.3.2.3. Describe any transition plan for individuals successfully exiting the program.

1.5.3.3. Identify the expected outcomes for the treatment population. Describe the evidence base underlying the recommended program model as well as any proof of concept for the proposed programming.

1.5.3.4. Identify the anticipated outcome metric(s) as well as the means and methodology for measuring, evaluating, and documenting program impacts (such as the creation of a randomized control group, for example). Describe ability to track and analyze data for performance measurement.

1.5.3.5. Describe the planned approach to raising funds for the project, from a combination of commercial and philanthropic sources, to cover operating costs and absorb risk if necessary. Identify how the Offeror intends to conduct ongoing program administration and project management.

1.5.3.6. Provide a detailed work plan and implementation schedule, including key milestones and deliverables. Address the timing of planning, start-up, service delivery, observation, measurement of outcomes, evaluation and determination of payment for a SIB Project.

1.5.3.7. Assess the future scalability of services beyond the proposed SIB Project, if the proposed SIB Project is successful, as well as any potential limitations to scaling.

1.5.3.8. Recommend a governance structure for the social impact bond contract that:
   a) ensures that service providers with expertise with the target population have a significant role in decision making;
   b) ensures that the State will have sufficient oversight and participation in decision making to allow it to protect the population being served from harm and to verify that the program delivery models are consistent with the intentions of this RFP; and
   c) allows sufficient flexibility for the Offeror to produce the desired amount of learning, innovation, and performance-based management.

1.5.3.9. Describe safeguards against harm that the Offeror will provide for the target population during the course of the intervention and suggest a plan for participating individuals should services be discontinued for any reason.

1.5.3.10. Identify any questions or concerns related to the State’s program goals set forth in this RFP, and/or obstacles to achieving such goals, including Responder ability gaps. Successful execution of a social impact bond contracting arrangement will require systems to support performance management, as well as the ability to measure outcomes and secure funding. GOMB understands that fulfilling all these requirements will likely require the coordinated efforts of multiple entities. References to ability gaps will be used to ensure that all necessary roles and functions are provided by the partnership of organizations entering into a social impact bond contracting arrangement.
1.5.3.11. Provide full citations for any referenced data or sources. This may be included as an appendix that does not count towards the narrative section page limit.

1.5.4. General Requirements

1.5.4.1. Detail the strategy for complying with, or provide evidence of good faith effort to comply with, the State’s Business Enterprise Program (BEP), as outlined in Appendix NN, for inclusion in Packet 1.

1.5.4.2. Summarize the Offeror’s anti-discrimination and affirmative action/equal opportunity policies. Summarize the Offeror’s female and minority employment practices, including the number of women, minority and disabled professionals employed by the Offeror and if they would be used to provide services to the State.

1.5.4.3. All Offerors are required to provide all certifications and disclosures as requested by this RFP. Failure to complete and sign the required forms included in the Appendices to this document may disqualify your firm.

1.6. QUALIFICATIONS: The Offeror, proposed intervention, and project must meet the following requirements. As noted, the intermediary and service provider roles may be assumed by a single entity or separate entities, so long as this entity can meet the functions individually or through pre-specified sub-contracting or consulting arrangements.

1.6.1. The Offeror must demonstrate that it has the requisite experience and qualifications to perform the following service provision functions:

1.6.1.1. Provide a service or program that is evidence-based and produces measurable outcomes that benefit the target population.

1.6.1.2. Work collaboratively with multiple partners, including with state government and an independent evaluator.

1.6.1.4. Adapt and/or refine an intervention to meet outcome targets.

1.6.1.5. Regular reporting to the State on service provision, outcomes, overall project management, or other project-related topics as requested.

1.6.2. The Offeror must demonstrate that it has the requisite experience and qualifications to perform the following project management and capital-raising functions:

1.6.2.1. Ability to enter into a contract with the State of Illinois.

1.6.2.2. Develop the Project, including identification of target population, intervention, target outcomes, budget, operational plan, and a financial model that connects payment to savings and outcomes.
1.6.2.3. Raise between $5 million and $30 million in funds for the project, from a combination of commercial and philanthropic sources, to cover operating costs and absorb risk if necessary.

1.6.2.4. Assemble, coordinate and manage partnerships, including a group of service providers if necessary.

1.6.2.5. Conduct ongoing management and administration of a performance-based Project that involves collecting, monitoring, analyzing and reporting outcome data as well as implementing course-corrections to improve outcomes.

1.6.2.6. Maintain investor relations, including meeting any reporting requirements.

1.6.2.7. Dedicate full-time staff to the development of the Project as the State’s partner. Staff assigned to this Project must have expertise in the policy area targeted by the proposed intervention.

1.6.3. The proposed intervention must reflect the following characteristics:

1.6.3.1. Demonstrated, achievable, and quantifiable budget savings to the State of Illinois, net of all project costs and returns to investors, as a result of services. Proposed interventions that are more cost-effective will be deemed as more qualified for a social impact bonds contract. In evaluating proposals, the State will give preference to projects where savings accrue to the State within the specified project timeline.

1.6.3.2. Strong evidence base supporting the proposed intervention’s positive impact, including evidence for proposed outcome(s) that are tied to savings. Results demonstrated with more rigorous methods or replicated through multiple evaluations will be considered as more qualified in the selection process.

1.6.3.3. Feasibility of measuring and reporting outcomes and impacts, including potential for obtaining the necessary data and strategy for assessing results relative to a rigorous counterfactual conditional analysis.

1.6.3.4. Ability and feasibility of intervention to serve at least 800 individuals over the course of the Project, in order to support and enable a robust evaluation for determining success outcomes and payment.

1.6.3.5. Safeguards against harm of the target populations.

1.6.4. The project must meet the following general characteristics:

1.6.4.1. It is the public policy of the State of Illinois to promote and encourage the continuing economic development of businesses owned and controlled by minorities, women and persons with disabilities. Vendors submitting bids in response to this solicitation are encouraged to make a good faith effort to include certified minority-owned, women-owned and persons with disabilities-owned businesses (BEP) in their proposal. While this contract does not have a specific BEP utilization goal, the quality of the Offeror’s proposed strategy to comply with State’s BEP program is included within the award criteria established for this solicitation. Failure to complete a Utilization Plan and/or provide Good Faith Effort Documentation may render the bid or offer less qualified. Certified BEP vendors
may be found at www2.illinois.gov/cms/business/sell2/Pages/VendorSearch.aspx. Refer to Appendix NN for more information and response requirements.

1.6.4.2. Per the Abused and Neglected Children Reporting Act (ANCRA), adults working with children and youth under the age of 18 years old are mandated reporters for suspected child abuse and neglect. All programs funded through this grant opportunity must have a written protocol for identifying and reporting suspected incidents of child abuse or neglect.

1.6.4.3. Background Checks are required for all staff and volunteers who have one-on-one contact with children and youth. Funded programs will be required to have a written protocol on file requiring background checks, as well as evidence of their completion.

1.7. WHERE SERVICES ARE TO BE PERFORMED

1.7.1. Offers in which services are delivered in multiple regions of the State, including areas both within and outside of the Cook County region, will be considered as more qualified.

1.7.2. Unless otherwise disclosed in this section, all services shall be performed in the United States. This information and the economic impact on Illinois and its residents may be considered in the evaluation. If the Offeror performs the services purchased hereunder in another country in violation of this provision, such action may be deemed by the State as a breach of the contract by Offeror.

1.7.3. Offeror shall disclose in the Technical Response described above the locations where the services required shall be performed and the known or anticipated value of the services to be performed at each location. If the Offeror received additional consideration in the evaluation based on work being performed in the United States, it shall be a breach of contract if the Offeror shifts any such work outside the United States.

1.8. SUBCONTRACTING

1.8.1. Subcontractors are allowed. For the purposes of this section, subcontractors are those specifically hired to perform all or part of the work covered by the contract. If subcontractors are to be utilized, in addition to describing their role in the Technical Response, Offeror must identify subcontractors with an annual value of more than $50,000 and the expected amount of money each will receive under the contract in Attachment FF - Subcontractor Disclosure.

1.8.2. The Offeror shall notify the State of any additional or substitute subcontractors hired during the term of this contract. Offeror shall provide the State a copy of all such subcontracts within 15 days after execution of this contract or the subcontract, whichever occurs later.

1.8.3. Any subcontracts entered into prior to award of the Contract are done at the Vendor's and subcontractor’s risk.

2.1.3.8. The State prefers to enter into social impact bond agreement(s) in which the total benefits to the State exceed the total costs within the overall project timeframe.

2.1.3.9. A discount rate of 0% and an inflation rate of 0% is assumed.

2.2. TYPE OF PRICING: Illinois law requires the State to indicate whether contract pricing is firm or estimated at the time it is submitted to the Illinois Office of the Comptroller for obligation. 2.5.1. Offeror’s Pro Forma Budget and Pricing for the Initial Term.

2.5.2. Renewal Compensation: If the contract is renewed, the price shall be at the same rate as for the initial term unless a different compensation or formula for determining the renewal compensation is stated in this section or the parties otherwise agree to new terms in writing.

The Business Enterprise Program Act for Minorities, Females and Persons with Disabilities (BEP) establishes a goal for contracting with businesses that have been certified as owned and controlled by persons who are minorities, female, or persons with disabilities (BEP certified vendor). 30 ILCS 575.

It is the public policy of the State of Illinois to promote and encourage the continuing economic development of businesses owned and controlled by minorities, women and persons with disabilities. Vendors submitting bids in response to this solicitation are encouraged to make a good faith effort to include certified minority-owned, women-owned and persons with disabilities-owned businesses (BEP) in their proposal. While this contract does not have a specific BEP utilization goal, the quality of the Offeror’s proposed strategy to comply with State’s BEP program is included within the award criteria established for this solicitation. Failure to complete a Utilization Plan and/or provide Good Faith Effort Documentation may render the bid or offer less qualified.

Guidelines
Following are guidelines for the Vendor’s response to the Utilization Plan. A format for the Utilization Plan is included in this section. Vendor should include any additional information that will add clarity to the Vendor’s proposed utilization of BEP certified vendors.

To qualify as a BEP certified vendor, a Vendor must be certified with CMS Business Enterprise Program at the time of bid or offer submission. Visit [www.sell2.illinois.gov/bep/Business_Enterprise.htm](http://www.sell2.illinois.gov/bep/Business_Enterprise.htm) for complete requirements and to apply for certification in the Business Enterprise Program.

1. If applicable where there is more than one prime vendor, the Utilization Plan should include an executed Joint Venture Agreement specifying the terms and conditions of the relationship between the parties and their relationship and responsibilities to the contract. The Joint Venture Agreement must clearly evidence that the BEP Certified Vendor will be responsible for a clearly defined portion of the work and that its responsibilities, risks, profits and contributions of capital, and personnel are proportionate to its ownership percentage. It must include specific details related to the parties’ contributions of capital, personnel, and equipment and share of the costs of insurance and other items; the scopes to be performed by the BEP Certified Vendor under its supervision; and the commitment of management, supervisory personnel, and operative personnel employed by the BEP Certified Vendor to be dedicated to the performance of the contract. Each party must execute the bid or offer prior to submission of the bid or offer to the Agency.

2. An agreement between a vendor and a BEP certified vendor in which a BEP certified vendor promises not to provide subcontracting or pricing quotations to other vendors is prohibited. The Agency may request additional information to demonstrate compliance. The Vendor agrees to cooperate promptly with the Agency in submitting to interviews, allowing entry to places of business, providing further documentation, and to soliciting the cooperation of a proposed BEP certified vendor. Failure to cooperate by Vendor and the BEP Certified Vendor may render the bidder or offeror non-responsive or not responsible.

3. **BEP Certified Vendor Locator References:** Vendors may consult CMS’ BEP Certified Vendor Directory at [www.sell2.illinois.gov/bep/Small_and_Diverse_Businesses.htm](http://www.sell2.illinois.gov/bep/Small_and_Diverse_Businesses.htm), as well as the directories of other certifying agencies, but **BEP subcontractors must be certified by CMS as BEP certified vendors at the time of submission of bid or offer.**
4. **Vendor Assurance:** The Vendor shall not discriminate on the basis of race, color, national origin, sexual orientation or sex in the performance of this contract. Failure by the Vendor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy, as the Agency deems appropriate. This assurance must be included in each subcontract that the Vendor signs with a subcontractor or supplier.

5. **Calculating BEP Certified Vendor Participation:** The Utilization Plan documents work anticipated to be performed, or goods/equipment provided by all BEP certified vendors and paid for upon satisfactory completion/delivery. Only the value of payments made for the work actually performed by BEP certified vendors is counted toward the utilization plan. Applicable guidelines for counting payments attributable to utilization plans are summarized below:

5.1. The value of the work actually performed or goods/equipment provided by the BEP Certified Vendor shall be counted towards the utilization plan. The entire amount of that portion of the contract that is performed by the BEP Certified Vendor, including supplies purchased or equipment leased by the BEP Certified Vendor shall be counted, except supplies purchased and equipment rented from the Prime Vendor submitting this bid or offer.

5.2. A vendor shall count the portion of the total dollar value of the BEP contract equal to the distinct, clearly defined portion of the work of the contract that the BEP Certified Vendor performs toward the utilization plan. A vendor shall also count the dollar value of work subcontracted to other BEP certified vendors. Work performed by the non-BEP certified party shall not be counted toward the utilization plan. **Work that a BEP certified vendor subcontracts to a non-BEP certified vendor will not count towards the utilization plan.**

5.3. A Vendor shall count toward the utilization plan 100% of its expenditures for materials and supplies required under the contract and obtained from a BEP certified vendor manufacturer, regular dealer, or supplier. A Vendor shall count toward the utilization plan the following expenditures to BEP certified vendors that are not manufacturers, regular dealers, or suppliers:

5.3.1. The fees or commissions charged for providing a bona fide service, such as professional, technical, consultant or managerial services and assistance in the procurement of essential personnel, facilities, equipment, materials or supplies required for performance of the contract, provided that the fee or commission is determined by the Agency to be reasonable and not excessive as compared with fees customarily allowed for similar services.

5.3.2. The fees charged for delivery of materials and supplies required by the contract (but not the cost of the materials and supplies themselves) when the hauler, trucker, or delivery service is not also the manufacturer or a supplier of the materials and supplies being procured, provided that the fee is determined by the Agency to be reasonable and not excessive as compared with fees customarily allowed for similar services. The BEP Certified Vendor’s trucking firm must be responsible for the management and supervision of the entire trucking operation for which it is responsible on the contract, and must itself own and operate at least one fully licensed, insured and operational truck used on the contract.

5.3.3. The fees or commissions charged for providing any bonds or insurance specifically required for the performance of the contract, provided that the fee or commission is determined by the Agency to be reasonable and not excessive as compared with fees customarily allowed for similar services.
5.4. BEP certified vendors who are performing on contract as second tier subcontractors may be counted in meeting the established BEP utilization plan for this contract as long as the Prime Vendor can provide documentation indicating the utilization of these vendors.

5.5. A Vendor shall count towards the utilization plan only expenditures to firms that perform a commercially useful function in the work of the contract.

5.5.1. A firm is considered to perform a commercially useful function when it is responsible for execution of a distinct element of the work of a contract and carries out its responsibilities by actually performing, managing, and supervising the work involved. The BEP Certified Vendor must also be responsible, with respect to materials or supplies used on the contract, for negotiating price, determining quality and quantity, ordering the materials or supplies, and installing the materials (where applicable) and paying for the material or supplies. To determine whether a firm is performing a commercially useful function, the Agency shall evaluate the amount of work subcontracted, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing and the credit claimed for its performance of the work, industry practices, and other relevant factors.

5.5.2. A BEP certified vendor does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction or contract through which funds are passed through in order to obtain BEP certified vendor participation. In determining whether a BEP certified vendor is such an extra participant, the Agency shall examine similar transactions, particularly those in which BEP certified vendors do not participate, and industry practices.

5.6. A Vendor shall not count towards the utilization plan expenditures that are not direct, necessary and related to the work of the contract. Only the amount of services or goods that are directly attributable to the performance of the contract shall be counted. Ineligible expenditures include general office overhead or other Vendor support activities.

6. Good Faith Effort Procedures: If the Vendor cannot provide and fulfill a utilization plan, the Vendor should document its good faith efforts that could reasonably have been expected to fulfill such a plan. The Procurement Management Team (PMT) or its delegate will consider the quality, quantity, and intensity of the Vendor’s efforts.

6.1. The following is a list of types of action that the PMT or its delegate will consider as evidence of the Vendor’s good faith efforts to fulfill a utilization plan. Other factors or efforts brought to the attention of the PMT or its delegate may be relevant in appropriate cases.

6.1.1. Soliciting through all reasonable and available means (e.g., attendance at a vendor conference, advertising and/or written notices) the interest of BEP certified vendors that have the capability to perform the work of the contract. The Vendor must solicit this interest within sufficient time to allow the BEP certified vendors to respond to the solicitation. The Vendor must determine with certainty if the BEP certified vendors are interested by taking appropriate steps to follow up initial solicitations and encourage them to submit a bid or proposal. The Vendor must provide interested BEP certified vendors with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding promptly to the solicitation.

6.1.2. Selecting portions of the work to be performed by BEP certified vendors in order to increase the likelihood that the utilization plan will succeed. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate BEP certified vendor

State of Illinois RFP
Attachment NN – Minorities, Females, and Persons with Disability Status Participation and Utilization Plan
V.13.1
participation, even when the Vendor might otherwise prefer to perform these work items with its own forces.

6.1.3. Making a portion of the work available to BEP certified vendors and selecting those portions of the work or material needs consistent with their availability, so as to facilitate BEP certified vendor participation.

6.1.4. Negotiating in good faith with interested BEP certified vendors. Evidence of such negotiation must include the names, addresses, and telephone numbers of BEP certified vendors that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting and evidence as to why additional agreements could not be reached for BEP certified vendors to perform the work. A Vendor using good business judgment may consider a number of factors in negotiating with BEP certified vendors and may take a firm's price and capabilities into consideration. Vendors are not required to accept higher quotes from BEP certified vendors if the price difference is excessive or unreasonable.

6.1.5. Thoroughly investigating the capabilities of BEP certified vendors and not rejecting them as unqualified without documented reasons. The BEP certified vendor’s memberships in specific groups, organizations, or associations and political or social affiliations are not legitimate causes for the rejection or non-solicitation of bids and proposals in the Vendor’s efforts to fulfill the utilization plan.

6.1.6. Making efforts to assist interested BEP certified vendors in obtaining lines of credit or insurance as required by the Agency.

6.1.7. Making efforts to assist interested BEP certified vendors in obtaining necessary equipment, supplies, materials, or related assistance or services.

6.1.8. Effectively using the services of available minority/women community organizations; minority/women vendors’ groups; local, state, and federal minority/women business assistance offices; and other organizations that provide assistance in the recruitment and placement of BEP certified vendors.

7. **Contract Compliance:** Compliance with this section is an essential part of the contract. The following administrative procedures and remedies govern the Vendor’s compliance with the contractual obligations established by the Utilization Plan. After approval of the Plan and award of the contract, the Utilization Plan becomes part of the contract.

7.1. Those who submit bids or offers for State contracts shall not be given a period after the bid or offer is submitted to cure deficiencies in the bid or offer unless mandated by federal law or regulation. 30 ILCS 575/4(e).

7.2. The Utilization Plan may not be amended after contract execution without the Agency’s prior written approval.

7.3. The Vendor may not make changes to its contractual BEP certified vendor commitments or substitute BEP certified vendors without the prior written approval of the Agency. Unauthorized changes or substitutions, including performing the work designated for a BEP certified vendor with the Vendor’s own forces, shall be a violation of the utilization plan and a breach of the contract, and shall be cause to
terminate the contract, and/or seek other contract remedies or sanctions. The facts supporting the request for changes must not have been known nor reasonably should have been known by the parties prior to entering into the subcontract. The Vendor must negotiate with the BEP certified vendor to resolve the problem. Where there has been a mistake or disagreement about the scope of work or goods/equipment, provided the BEP certified vendor can be substituted only where agreement cannot be reached for a reasonable price or schedule for the correct scope of work, goods or equipment.

7.4. In accordance with the Procurement Code, substitutions of a BEP certified vendor may be permitted under the following circumstances:

7.4.1. Unavailability after receipt of reasonable notice to proceed;
7.4.2. Failure of performance;
7.4.3. Financial incapacity;
7.4.4. Refusal by the BEP Certified Vendor to honor the bid or proposal price or scope;
7.4.5. Material mistake of fact or law about the elements of the scope of work of a solicitation where a reasonable price cannot be agreed;
7.4.6. Failure of the BEP Certified Vendor to meet insurance, licensing or bonding requirements;
7.4.7. The BEP Certified Vendor’s withdrawal of its bid or offer; or
7.4.8. Decertification of the BEP Certified Vendor.

7.5. If it becomes necessary to substitute a BEP certified vendor or otherwise change the Utilization Plan, the Vendor must notify the Agency in writing of the request to substitute a BEP certified vendor or otherwise change the Utilization Plan. The request must state specific reasons for the substitution or other change. The Agency will approve or deny a request for substitution or other change in the Utilization Plan within five business days of receipt of the request.

7.6. Where the Vendor has established the basis for the substitution to the Agency’s satisfaction, it must make good faith efforts to meet the utilization plan by substituting a BEP certified vendor. Documentation of a replacement BEP certified vendor, or of good faith efforts to replace the BEP certified vendor, must meet the requirements of the initial Utilization Plan. If the utilization plan cannot be fulfilled and good faith efforts have been made, the Vendor may substitute with a non-BEP certified vendor or the Vendor may perform the work.

7.7. If a Vendor plans to hire a subcontractor for any scope of work that was not previously disclosed in the Utilization Plan, the Vendor must obtain the approval of the Agency to modify the Utilization Plan and must make good faith efforts to ensure that BEP certified vendors have a fair opportunity to submit a bid or offer on the new scope of work.

7.8. A new BEP certified vendor agreement must be executed and submitted to the Agency within five business days of the Vendor’s receipt of the Agency’s approval for the substitution or other change.

7.9. The Vendor shall maintain a record of all relevant data with respect to the utilization of BEP certified vendors, including but without limitation, payroll records, invoices, canceled checks and books of account for a period of at least three years after the completion of the contract. Full access to these
records shall be granted by the Vendor upon 48 hours written demand by the Agency to any duly authorized representative thereof, or to any municipal, state or federal authorities. The Agency shall have the right to obtain from the Vendor any additional data reasonably related or necessary to verify any representations by the Vendor. After the performance of the final item of work or delivery of material by the BEP Certified Vendor and final payment to the BEP Certified Vendor by the Vendor, but not later than 30 calendar days after such payment, the Vendor shall submit a statement confirming the final payment and the total payments made to the BEP Certified Vendor under the contract.

7.10. The Agency will periodically review the Vendor’s compliance with these provisions and the terms of its contract. Without limitation, the Vendor’s failure to comply with these provisions or its contractual commitments as contained in the Utilization Plan, failure to cooperate in providing information regarding its compliance with these provisions or its Utilization Plan, or provision of false or misleading information or statements concerning compliance, certification status or eligibility of the BEP Certified Vendor, good faith efforts or any other material fact or representation shall constitute a material breach of this contract and entitle the Agency to declare a default, terminate the contract, or exercise those remedies provided for in the contract or at law or in equity.

7.11. The Agency reserves the right to withhold payment to the Vendor to enforce these provisions and the Vendor’s contractual commitments. Final payment shall not be made pursuant to the contract until the Vendor submits sufficient documentation demonstrating compliance with its Utilization Plan.
