Proposal Opportunities

- **Aura Science Team and Atmospheric Composition: Modeling and Analysis** both competed last year.
 - ACMAP selected 19 of 57 proposals
- ACMAP, Tropospheric Chemistry (TCP), and Modeling, Analysis & Prediction Program (MAP)
 - No solicitations this year (ROSES-11)
 - But, likely next year (ROSES-12)

Uncosted Carry-Over

- **NASA HQ is looking closely at the costing of funds distributed as grants, contracts, and RTOPs**
- **ACMAP: \$5.7M in FY10 uncosted funds as of 26 April**
- **R&A Programs hit hard by reductions in FY11 budget targets as a result of uncosted funds**
 - **ACMAP lost \$730K in FY11 funds**
- **If spending is slow due to, e.g., difficulties hiring a post-doc, please let your program manager know!**
