MEET ALM IN CREATIVE WRITING GRADUATE, JONATHAN REYNOLDS

Job title prior to HES: When I enrolled at HES, my wife and I owned an educational travel company called Elite Expeditions, which is partnered with National Geographic Magazine. At the time, I was also working with my literary agent to prepare my latest manuscript for submission to publishers.

Current job title: My wife and I still own Elite Expeditions, and I also write children's novels for HarperCollins Publishing. My current series, MonsterStreet, was endorsed by R.L. Stine (creator of Goosebumps) and is currently being developed into an animated TV series. I am also working on my Ph.D. in Literature, Film, and Writing at the University of Birmingham in the UK.

How has earning a degree from HES helped you professionally?

I was fortunate that I had already "made it" in the publishing industry prior to receiving my degree at HES. But the value I received from my journey at Harvard was immeasurable, and the entire experience was inspiring. I felt highly stimulated by the courses, supported by the majority of my professors, and I came away from it all with a wealth of new knowledge, experiences, and friendships I'll forever cherish. Also, my degree from HES helped me get into a Ph.D. program at one of the top universities in the UK.

Most helpful resource at HES:

I had some phenomenal professors at HES who were incredibly supportive and with whom I still stay in touch. They are all wonderful people who truly care about the well-being and success of their students. Widener and Houghton libraries were also incredible resources, especially while working on my thesis about the American Transcendentalists.

Advice for prospective or current degree candidates:

Take the courses that interest you. There's so much to absorb and gain from your teachers and from class discussions. Also, get to know your fellow students. Embrace them as fellow journeymen and journeywomen, and encourage, support, and challenge each other along the way. Some of my favorite relationships in all my years of schooling came from encounters with fellow students at HES.
