### Procedure: Fixed Price Balances

#### Reason for the Procedure

As a non-profit institution, the University is prohibited from seeking profit from its research activities; therefore, significant residual balances on fixed price sponsored awards may call into question the validity of the proposed budget and potentially affect the University’s tax-exempt status.

This procedure document builds upon the University’s Guidance on Fixed Price Sponsored Awards. This procedure is applicable to all Chan School appointees who receive sponsored funding.

#### Procedure Summary

This procedure must be followed at the end of a project when the sponsor does not require the return of unspent income:

- The OSP Financial Analyst will request the Balance Transfer Form from the Grant Manager
- Complete the Form and include relevant documents
- Obtain required signatures
- Submit Form to OSP, who will transfer the funds to the designated accounts

#### Guidance

**Proposal stage**

Principal Investigators and administrators must prepare accurate, detailed proposal budgets to fully capture all resources necessary for the work performed on the project. Reasonable estimates are the industry standard. Investigators and administrators are expected to understand the ebb and flow of expenses of their projects so that the reasonable estimate becomes more accurate over time. If the unexpended balance is greater than the university’s threshold, the PI is required to explain the submitted budget and the unexpended line items, to encourage more accurate budgets in the future.

**Award management**

Principal Investigators and administrators are expected to monitor spending on fixed price awards according to the budget and adjust throughout the life of the project as circumstances arise. If the project is performed at a cost below the awarded amount, the residual balance (including any interest income) must be treated in accordance with the terms and conditions of the award and/or the sponsor’s written policies relating to disposition of unspent funds. If the award and sponsor are either silent on this issue and/or
