ALL DOCUMENTS PROVIDED MUST BE ORIGINALS. PHOTOCOPIES, FACSIMILES, ELECTRONIC PRINTOUTS OR ANY OTHER ARTICLE THAT IS NOT AN ORIGINAL IS NOT ACCEPTABLE.

Article 5 The HRKC Executive Committee (HRKC EC) reserves the right to disqualify teams and individuals from participation in the Shoryuhai. If a team or individual is housed on Harvard University property at the time of disqualification, all matches will be halted and the disqualified team or individual must IMMEDIATELY vacate the premises at which they are housed.

Article 6 At registration, undergraduate teams must declare the order in which their members will compete. This order may be modified until the registration deadline, after which it MAY NOT BE CHANGED. Doing so will result in immediate disqualification of the entire team.

Article 7 An individual may only participate on one team.

Article 8 Colleges/universities will be allowed to register a maximum of one (1) team without any restrictions. Any college/university wishing to register more than one team, please refer to Supplement 3.

Article 9 All members of a team should be from the same college/university. Any team that is mixed of more than one college/university, please see Supplement 4 for guidelines. Note: Mixed teams will NOT be allowed to advance to the quarterfinals and beyond in the undergraduate team competition.

Article 10 The first, second and third place teams of the undergraduate team competition will be determined as follows:

Teams will be divided into brackets based on their members' cumulative ranks and shall initially compete with other teams in that bracket.

Each team's total number of team matches won from the preliminary rounds will be tallied, and the top two teams from each bracket will advance to the quarterfinals.

If there is a tie in the total number of team match wins, the total number of individual matches won will be tallied.

If that number results in a tie, the total number of individual points scored will be used to decide entrance to the quarterfinals. If, in the unlikely case that all three of the mentioned totals are equal for more than one team, ties for entering the quarterfinals will be broken by a match between team-selected representatives.

In the quarterfinals, the top team from each bracket will fight the lower team in another bracket.

The teams that continue on to semifinals will be the teams that won their quarterfinals. The teams that continue on to the final match will be the teams that won their semifinal round. If there is a tie, a system identical to the one used to break ties in the preliminary brackets will be used.

The winner of the final round, the first place team, will be determined in the same way, counting the number of victories in individual matches. The losing team in the final round will receive second place, while both losing teams from the semifinals will be acknowledged as third place teams.

Article 11 For the individual competition, players will be ranked based upon the following criteria, in order:

- a. If the individual finished among the top three in the previous year's competition
- b. The rank of the individual.

Article 12 The first, second, and third place finishers for the individual competition will be determined as follows:

Players will be ranked and separated into two 32-player brackets.

Should any bracket contain a total number (N) greater than 32 individuals, then $(N-32) \times 2$ players will be randomly drawn beginning from lowest rank and each assigned to play a preliminary single- elimination match. The number of players in the bracket will thereby be brought to 32.

Should any bracket have less than 32 individuals, then the highest ranked (dan-holding) individuals will receive a BYE in the first round. All considerations will be made to keep individuals from playing people of their own University in the early rounds if possible.

The semi-final matches will consist of the top two players of each bracket. The winners of each bracket will play each other in the final match.

Article 13 Tournament matches are conducted in accordance with the rules and regulations governing kendo matches and refereeing set forth by the International Kendo Federation, with the following exceptions:

- Tsuki* (a thrust to the throat) will not be scored as a legal point except against a *jodan* opponent.**
- Preliminary Team Matches shall be 2 minutes in length.**

Article 14 All rulings and decisions made by tournament judges or by the HRKC Executive Committee are final and may not be disputed.
