

Text a keyword answer to 22333.

Question:

Imagine that the United States is preparing for the outbreak of an unusual Asian disease, which is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:

If **Program A** is adopted, 400 people will die.

If **Program B** is adopted, there is a one-third probability that nobody will die and a two-thirds probability that 600 people will die.

Which one of the two programs would you favor?

How to answer:

*For Program A, text the keyword **PROGRAM2A***

*For Program B, text the keyword **PROGRAM2B***

Text your answer to 22333.
